

NW Wisconsin Water Conservation & Efficiency Seminar

June 10th, 2010

Hosted by City of Hudson Water Utility
Phipps Center ♦ Hudson, WI

- This *free* seminar is for *local decision makers and managers* of water utilities, who are concerned about their local water supply and controlling water rates.
- Talk with experts and resource people about water conservation/water use issues, pricing and future rate process.
- How to work beyond political boundaries to plan for a long-term supply.
- Share and learn about the techniques other communities are using to gain support by involving the public.
- Learn why System Efficiency and Conservation saves you \$\$\$ and makes sense.

Thursday June 10th
